

Norfolk Clubhouse Membership Journey

Visit Clubhouse

Contact us to visit and find out about Norfolk Clubhouse. If you feel that you wish to become a Member, contact your GP, CPN, psychologist, psychiatrist, social worker, support worker or occupational therapist to make a referral.

Strength & Skills

Following referral we will meet and find out about your interests, skills and strengths.

Relationships

Develop relationships with other members of the clubhouse, and work with others who share your interests to develop the clubhouse.

Valuing Bright Ideas

We want to know your thoughts and ideas as equal members of the clubhouse. You will take part in decision making and influence the future direction of the clubhouse.

Co-Create a 12 Week Plan

You will create a pathway for the next 12 weeks to meet your individual needs and develop your skills, interests and strengths.

Partnership Working

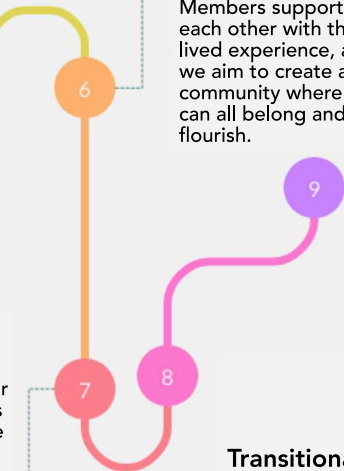

We seek to establish partnerships with local employers, colleges and training providers to provide a mutually helpful source of positive work experiences for clubhouse members if they so wish.

Peer Support

Members support each other with their lived experience, and we aim to create a community where we can all belong and flourish.

Life Membership

You are a member for life. If you take up employment or wish to become a Mentor for other members, this is an option.

Transitional Employment Opportunities

Clubhouse supports members to access 6 or 9 month's paid work placements with local employers to help build confidence and develop existing or new skills.
